# LEGALAI — TABLE & CHART DETECTION TEST

FICTIONAL SAMPLE DOCUMENT • FOR SOFTWARE TESTING ONLY

This synthetic service agreement is created to test PDF text extraction, table detection, chart-region detection, page-number preservation, bounding boxes, and OCR/layout workflows. It is not legal advice and is not a real contract.

## 1. Parties and Agreement

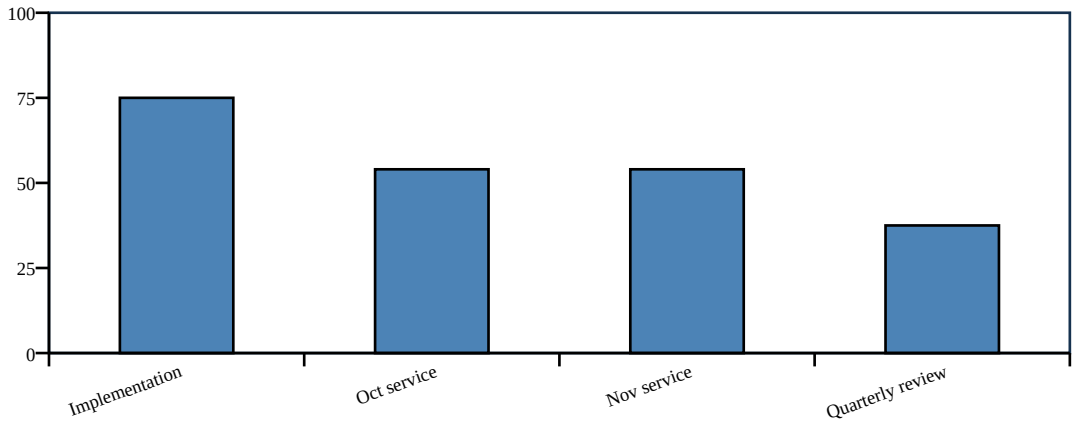
**Client:** Northstar Legal Operations Pvt. Ltd. (fictional)
**Service Provider:** Meridian Document Analytics LLP (fictional)
**Effective Date:** 1 October 2026
**Initial Term:** 12 months, ending 30 September 2027 unless terminated earlier under the agreement.

## 2. Payment Schedule (Table Detection Target)

| Milestone | Due Date | Amount (INR) | Condition |
|---|---|---|---|
| Implementation | 01 Oct 2026 | 75,000 | On commencement |
| Monthly service — Oct | 15 Oct 2026 | 18,000 | Undisputed invoice |
| Monthly service — Nov | 15 Nov 2026 | 18,000 | Undisputed invoice |
| Quarterly review | 15 Dec 2026 | 12,500 | After review report |

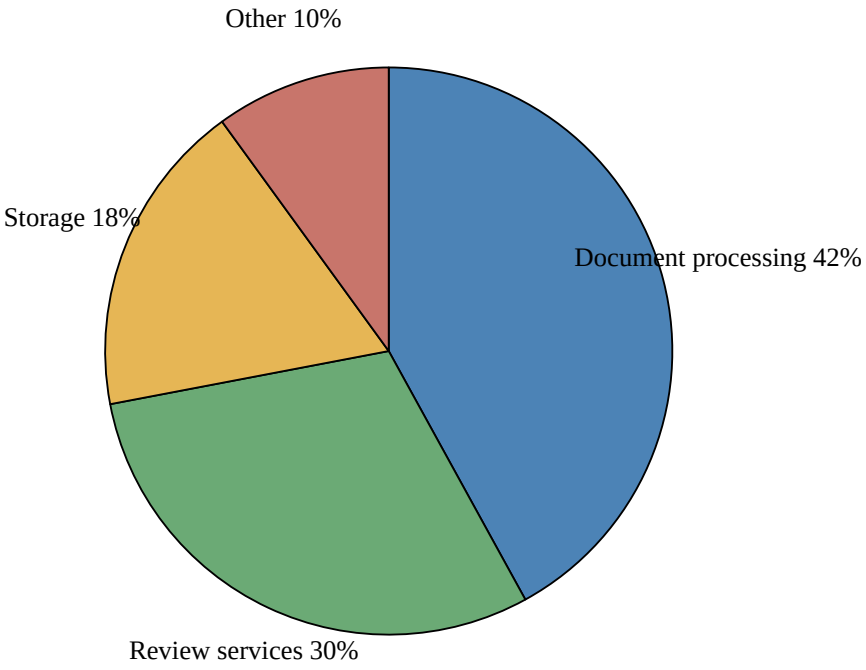
**Payment term:** The client must pay each undisputed invoice within fifteen (15) calendar days of receipt. Any disputed line item must be identified in writing within seven (7) calendar days.

## 3. Annual Cost by Category (Bar Chart Detection Target)



## 4. Quarterly Expense Allocation (Pie Chart Detection Target)

The following chart shows the fictional allocation of a quarterly operations budget totaling INR 120,000.



## 5. Obligations and Risk Notes

| Area | Obligation / Risk | Reference |
|---|---|---|
| Confidentiality | Both parties must protect confidential information. | Clause 5 |
| Late payment | Interest may apply after a 10-day cure period. | Clause 6 |
| Termination | Either party may terminate with 30 days' written notice. | Clause 8 |

## 6. Testing Ground Truth

Expected visible regions: Page 1 contains one payment schedule table and one vertical bar chart. Page 2 contains one pie chart and one risk-notes table. These are known regions for manual comparison; they are not model labels and do not guarantee any particular detector will identify them.

**Testing note:** Standard YOLOv8n COCO weights do not include legal-document table or chart classes. Use a document-layout detector with suitable classes or a properly annotated dataset for YOLO fine-tuning.
